

Buildsafely Incident Report

MAJOR INJURY

MAJOR INJURY	OTH CONSTRUCTION	Male	12/11/11
--------------	------------------	------	----------

FRACTURE with dislocation, chipped or cracked bone; hairline FOOT - Foot including heel.

The IP came into contact with the wheels of a lorry while moving fencing adjacent to the area of works of the lorry. The IP stepped backwards into the path of the lorry as it was reversing and trapped his foot.

MAJOR INJURY	ENGINEER / TECHNOL	Male	13/11/11
--------------	--------------------	------	----------

FRACTURE with dislocation, chipped or cracked bone; hairline LOWER LIMB - Lower limb including calf, knee thigh, hip.

All works were being carried out indoors at the premises. IP had finished work on an electrical installation project for the day. He returned to the first floor production area to retrieve his torch when he slipped/ tripped on the floor and fell awkwardly on his leg which resulted in a fractured left leg.

MAJOR INJURY	PLUMBER / HEATING	Male	18/11/11
--------------	-------------------	------	----------

AMPUTATION involving loss of part/whole of limb, digit etc Excludes FINGER - 1 or more fingers including thumb(s).

The employee tightened chuck of Milwaukee handrill, wearing rubber gloves and liner. Back of chuck pulled finger into drill as the gloves caught on drill, causing part of the finger to dismember (loss of top half of finger). Employee was taken to Altnagelvin Hospital, and then to Dundonald where they advised that they could not save the top half of the finger so they performed operation to remove it.

MAJOR INJURY	OTH CONSTRUCTION	Male	24/11/11
--------------	------------------	------	----------

Buildsafely Incident Report
